Optimized for asset tracking, our high performance Li-ion battery lets the device operate for very long time periods, minimizing the maintenance efforts. It is **rechargeable** with a standard mini-USB cable.

The LOSTnFOUND® NIMBO is about the size of a cell phone and weights less than **50 grams**. This means you can easily insert it into any asset to track or outside with the delivery Documents.

More than just location: know in which conditions is your asset! The LOSTnFOUND® NIMBO tracker comes with a **motion sensor**.

- The LOSTnFOUND® NIMBO is part of LOSTnFOUND®'s **global tracking system**
- Built for logistics, this small and light device can simply stay with your assets **anywhere**, even abroad
- Its extremely **low power consumption** lets you operate for weeks or even months
- The position can be determined if a GSM network is visible. This means in practice almost everywhere, **indoors** and **outdoors**, thus outperforming the GPS system
- In addition, the tracker is capable of detecting **motion**.
